ABOUT ME

Full-Stack Developer skilled in Laravel, PHP, Vue.js, Angular, Java, and Spring Boot. Experienced in manual testing, CI/CD, and Scrum. Proficient in front-end and back-end development, including Flutter apps.

WORK EXPERIENCE

QA Functional Tester November 2023 - September 2024 (10 month)

QA Tester Full time **Cod Partner** Morocco ,on-site

As a QA Functional Tester, I developed and executed test cases, identified and reported defects, and worked with developers to address issues. I ensured the software met quality standards and user requirements.

Full stack web developer September 2023 - October 2023 (2 month)

Intern **Cod Partner** Morocco ,on-site

During my internship at Cod Partner, I developed features such as pages, forms, and messaging systems using Laravel and Vue.js. I also maintained and improved the existing codebase, addressing issues and optimizing performance.

Full stack web developer Mars 2023 - June 2023 (4 month)

Intern **Inovative Technologies** Morocco ,on-site

During my internship at Item, I developed features such as pages, forms, and messaging systems using Laravel and Vue.js. I also maintained and improved the existing codebase, addressing issues and optimizing performance.

Full stack web developer November 2022 - December 2022 (2 month)

Intern **Palace Digital Agency** Morocco ,on-site

During this period, I updated an e-commerce dashboard to display delivery, confirmation, and cancellation rates, integrated charts with Chart.js, and improved the accounting section for viewing order data and amounts over various timeframes.
